MEMORANDUM FOR: Deputy Director for Support  
THROUGH : DDS Career Management Officer  
SUBJECT : Directorate Panels and Boards  
REFERENCE : Memo dated 2 June 1970, from DDS, same subject

1. This memorandum is in response to paragraph 2. of reference.

2. After reviewing the attachment to the referent memorandum, I wish to modify one of the areas identified in the Office of Finance as capable of accommodating a young officer. Furthermore, I am adding an additional area by adoption of one of the areas identified by several other support components in the attachment.

3. The modification has to do with the Travel Policy Committee. Since the Office of Finance is not the convening authority of the TPC, my suggestion for the introduction of a young finance careerist into this body is limited to the young officer's participation as an observer and assistant to the Secretary and Advisor to the TPC, who is a finance careerist.

4. I would add to the list, the participation of one or two young officers at the GS-12 level as voting members of the Finance Career Service Board. These officers would fully participate in the consideration of promotion recommendations and the selection of finance careerists for training, reassignment, etc. in the grades GS-07 through GS-11.

5. In addition to the identification of these specific panels and boards, whenever practicable we plan to use young officers in the preparation for and participation in finance briefings, and as participating members in ad hoc working groups and task forces.

6. A number of young officers are interested in these assignments and several have been selected as additions to established panels.

  
L. E. Bush  
Director of Finance
